CIT4001 SOFTWARE IMPLEMENTATION AND TESTING

Training plan and blank acceptance forms

PracticeChart EHR

University of Technology, Jamaica

Group 2

This document describes the implemented course application and the evidence recorded for it. It uses fictional patient data. Human training and user acceptance remain pending.

Public course copy. Student identification numbers and private course instruments are excluded.

Prepared for group review. This is not a record of clinical approval, a live pilot, completed training, or completed acceptance testing.

Training plan

Training is planned. No completed staff training is claimed.

Session	Audience	Method	Planned task check
Access and privacy, 20 minutes	Both roles	Demonstration and guided practice	Log in, explain role limits, log out
Patient administration, 30 minutes	Front desk and doctor	Fictional task exercises	Register, find, and change a patient
Scheduling, 30 minutes	Front desk and doctor	Guided practice with conflicts	Confirm, reschedule, cancel, and mark arrival
Clinical records, 40 minutes	Doctor	Fictional consultation exercises	Save draft, final entry, and correction
Documents and outputs, 25 minutes	Doctor; front desk for administrative outputs	Demonstration and practice	Retrieve a lab report; print allowed outputs
Filing and invoices, 20 minutes	Front desk	Task practice	File a ready visit and issue an invoice
Recovery, 30 minutes	Technical operator	Recovery drill	Restore a backup into an isolated local copy

Use fictional records. Let the trainee perform each task without step-by-step help after the guided example. Record errors and questions. Repeat failed tasks. Supply the user manual. Keep a named support contact and issue log. Schedule a follow-up session after actual use begins. No live start date is claimed.

Blank training attendance record

Session: _____ Date: _____ Trainer: _____

Participant: _____ Role: _____

Tasks attempted: _____

Tasks completed without help: _____

Support needed: _____

Participant confirmation: _____ Trainer confirmation: _____

Blank user acceptance task form

Status: Not yet performed.

Tester: _____ Role: _____ Date: _____

Device and browser: _____

Build or commit: _____

Task	Expected result	Actual result	Pass or fail	Issue reference
Log in with the assigned role	Correct workspace and access			
Register and find a fictional patient	Unique MRN and correct person			
Change demographics	Save current version or show conflict			
Book an appointment	Confirm only a free interval			
Try a conflicting booking	Reject without a duplicate booking			
Reschedule and cancel	Preserve history and release the cancelled slot			
Record and correct care, doctor only	Keep every earlier revision			
Retrieve a diagnostic report, doctor only	Return the correct private file			
File a visit	Require a completed doctor diagnosis			
Print allowed reports	Readable and limited to the role			
Use phone and keyboard	Controls remain usable			

Comments: _____

Decision: Accept / Accept with conditions / Reject / Not ready for decision

Conditions: _____

Tester confirmation: _____ Group reviewer: _____

Blank issue and contribution records
